

# Cole Godzinski

I'm Cole Godzinski and I just finished my freshman year of college at Worcester Polytechnic Institute. I'm a mechanical engineering major and I am also a member of the women's track and field team at WPI.

At North Reading High School, I participated in varsity soccer, indoor track and outdoor track and field; I was a captain for both sports during my senior year. I was an honors student and Secretary of National Honor Society for my grade. I also volunteered for the Summer Track and Field Camp for three years when I was in high school and when I was younger, I had attended the camp for many years.

This will be my second year with the SummerScape Program. Before being a counselor at SummerScape last year, I was an assistant soccer coach for Pee wee soccer run by the Parks and Recreation Department. I can't wait to have another fun time at SummerScape this summer!
